SIC-BC-MEMO-2026-029

Announcement

Subject: Policy on the Preparation of Carbon Footprint for Organization (CFO)

Silicon Craft Technology Public Company Limited (the "Company") has established a policy on the preparation of the Carbon Footprint for Organization (CFO) in order to assess the amount of greenhouse gas (GHG) emissions and removals generated by the organization. This serves as a foundation for implementing measures to reduce the Company's greenhouse gas emissions in the future.

1. Objectives

To evaluate the greenhouse gas emissions arising from the Company's operations and activities, and to serve as a tool for calculating such emissions. The outcome will provide a basis for establishing effective management guidelines to reduce greenhouse gas emissions, while also preparing employees to gain a clear understanding and to be able to report on the Company's greenhouse gas emissions and removals (Greenhouse Gas Reporting) in the future.

2. Scope

This policy shall apply to all operational processes related to the Company. The assessment and compilation of greenhouse gas emissions and removals shall be conducted under the Operation Control Approach, covering activities within the Company's control and operations.

3. Roles, Duties, and Responsibilities in Preparing the Carbon Footprint

3.1 Promote and encourage employees to manage resources with understanding, in order to foster awareness and responsibility in jointly managing the organization effectively and for the utmost benefit.

3.2 Employees of the relevant departments are responsible for collecting data and evidence regarding greenhouse gas emissions and removals associated with the Company's activities, to be used for evaluation and preparation of the annual report.

This announcement is made for acknowledgment and compliance by all concerned.

Announced on October 1, 2026.

Signed.....

(Dr. Bodin Kasemset)
